Regular Tasks

1. Stock the lake and stream twice a year. First stocking in late March/early April, second stocking around Memorial Day.
2. Distribute green member badges to new members.
3. Make sure Carol Stumpf (Membership) and Caretaker Andy Rance have guest badges to give to PF guests who hunt or fish during the year. Cost is \$10/day to fish and \$25/day to hunt.
4. Conduct the hunter safety meeting before the opening of firearms season for deer. Takes place the Friday evening before the Saturday opening, at the Tea Room.
5. Provide the person who edits The Spray (Communications) with the various hunting season dates for the coming year so members who walk the grounds can be aware when hunters may be in the woods. We strongly urge members who walk and/or hike at PF to stay on the main roads during hunting season.
6. Work and communicate with the Property and Environmental committees concerning any issues that involve or impact on the lake, stream, and woods.

*Place your order before the end of the year for the upcoming year to receive a 7% discount.

Projects

We have been awarded a grant to do stream improvements/remediation on a section of the creek running from the base of the dam to the corner pool. We're presently interviewing contractors and entertaining bids to do the stream remediation work.

Our next project, which we're getting estimates on and formulating a grant proposal for, involves minor dredging and stone removal at the top of the lake where Paradise Stream comes in.
