

We are happy to welcome PFLA's new caretaker, Darin Schaedel.

Darin started in January and is on the grounds Monday–Friday from 8:30-3:30. He may be reached at PFLACaretaker@gmail.com or 570-243-1002.

Darin and his wife, Crista, live in Delaware Water Gap, PA. They have two sons—Jonas, who is a student at technical school, studying plumbing and building and will be Darin's assistant at PF during the season. Their other son, Michael is a barber and nail technician.

Darin has decades of experience working in the aquatic environment, building, and facilities management. He grew up on a farm and his parents owned a lumber yard in Washington, NJ, where he helped build houses, did remodeling, plumbing, electrical and other projects. Darin has a passion for old homes and likes to keep the character of the home intact as repairs and upgrades are done. Both Jonas and Darin hold several certifications in water safety, building and other trades.

Darin is looking forward to getting to know the PFLA community better as he works with us.
